

# Adry – Together

Nothing left of us, when we are not together  
The sun doesn't shine here  
And the moon is going down there

Looking for the one but there's another  
She is fading you out  
There is no sign of you in my head

Time is an unfair ride it's getting me high it's getting me down  
When I try to give her a call  
She's far away from home, hanging with another

Nothing left of us, when we are not together  
The rain doesn't stop here  
And the ground is taking me down there

Looking for her now but found another  
She takes all my time  
It's like you have never been there.
